great fun to climb a tree to get some  
green apples. There are no trees of any  
consequence in New Mexico and Weldon,  
who is full of life and daring, had no  
thought of danger as he went up the  
tree. He made a mistep and came to the  
ground on his left arm. Dr. Harvey was  
called to put the arm in splint. Wel-  
don is going about the place the same as  
usual but he is not climbing any more  
trees.

SUNDAY morning while driving the  
family cow to the pasture east of the city  
Nonnie Grist, son of Mr. and Mrs. A. T.  
Grist, had the misfortune to step on a  
rusty nail which penetrated the ball of  
the foot to the bone. Nonnie pulled the  
nail out, but did not say anything about  
the injury until he was in excruciating  
pain. Then his father applied a remedy  
which opened the wound and gave him  
relief. It is hoped and believed that  
there will be no serious results.

The funeral of the late Mrs. Fannie  
Gee, who died Saturday morning in Chi-  
cago, took place this afternoon, and was  
largely attended by Decatur friends.  
Rev. Fleming Gray and Rev. Harvey  
conducted the service. Burial in Green-

MAN'S HEAD CAN NOT BE FOUND.

Train Ran Over His Body but  
Apparently He Had  
Been Murdered.

Mail train No. 23 on the Wabash rail-  
road ran over the form of a man yester-  
day in Newton township, near Fairbury,  
which is in the extreme northwestern  
portion of Livingston county. The train  
was in charge of Engineer Burch and  
Conductor Clemons. The engineer and  
the fireman testified that they noticed  
what appeared to be a man once applied  
the brakes were at once applied  
and the engineer whistled, but the man  
did not move, and before the train could  
be stopped they had run over him.

There appears to be a murder mystery  
attached to the affair, which is now being  
investigated by a coroner's jury. The  
head of the man could not be found.  
From what was left of the victim  
identification was impossible. From the  
wearing apparel he was apparently in  
good circumstances.

In the Regular Army.

Three Decatur young men have en-  
listed in the Regular Army and Satur-  
day they were assigned by Sergeant  
Strapton to the Second U. S. Cavalry.  
The recruits go to New Mexico and are  
Otha Newell, son of John Newell, of  
Haworth avenue. He is 19 years of age.  
Henry Garcey is a Frenchman, 23 years  
of age, who has been in the country three  
years. His father accompanied him to  
the train and is quite sure Henry will  
rise in the ranks. Irwin C. Panosue is  
aged 20. The two younger men had to  
have their parents consent. They will  
enlist for five years but in time of peace  
can have their discharge at the expiration  
of three years. Or they can buy out at  
the expiration of one year for \$120, the  
second year for \$80. They receive \$13 a  
month with board, clothes and all ex-  
penses. Garcey is a coronet player.  
Lieutenant Irwin came over from Spring-  
field and before leaving secured trans-  
portation for his new recruits.

The Boy Preacher.

Rev. Thomas Harrison, who conducted  
a remarkably successful religious revival  
at the First church in Decatur in 1893-4,  
occupied the pulpit of the First M. E.  
church in Springfield on Sunday morn-  
ing and evening. The church was  
crowded to the doors, and at night hand-  
reds were unable to gain admission. In  
the course of the evening address, the  
boy preacher became so earnest that he  
knocked the Bible off the desk, but that  
misstep did not disturb him. He went  
right on with his sermon and finished it  
with the Bible on the floor.

Special Notice.

After to-day (July 17) our cars will  
stop only on the opposite crossings,  
switches and in the middle of long blocks.  
We do this in order to be on time and  
give good service. CITY ELECTRIC RY.

Supposed to Be Dying.

George W. Downing is reported to be  
in a dying state in Chicago, where he  
has been residing with his family for  
some weeks. Saturday a telegram was  
received, telling his brothers, Wayne  
and Harvey Downing, to Chicago.

Accident at Marion.

The Vandalia had a small accident at  
Marion this morning, in which a switch  
engine left the track, but further than  
this no damage was done.

LOGAN LETTER.  
CHICAGO, Ill., July 17, 1893.

Wheat opened steady, but later commenced to  
sag on reports of further financial troubles at  
Kansas City and Denver. The outside public is  
not in the market, and though crop reports con-  
tinue bullish and the decrease about 1,200,000  
and visible 2,491,000, total about 4,000,000 favors  
the same side, the apathy of speculation pre-  
vents a rallying market. The financial situation  
is now a ruler of wheat values.

Corn broke after the opening on showings in  
the corn country and some local selling. Re-  
ports are fairly liberal but are readily absorbed.  
The low grades are in good demand. Favorable  
crop prospects may depress the price temporarily,  
but with such good cash demand we look on  
short sales as dangerous.

FIRST TRANSVAAL SETTLER.

Record of a Terrible March in South Africa  
That Reads Like a Novel.

de Villiers Roos, of Land on Volk,  
has just completed for the society Jong  
Zuid Afrika a work of incalculable im-  
portance to the South African-republican,  
and, in fact, to the whole of South Af-  
rica. He has copied for the society the  
diary of the first white man who en-  
tered the Transvaal. The story of the  
Trichardt march from the Cape Colony  
through Zoutpansberg to Delagoa bay  
is contained in this diary, which is in  
the handwriting of Louis Trichardt,  
grandfather of the commandant of Mid-  
delburg. The trek consisted originally  
of two clans, the Trichardts and the  
Rensburgs, but they quarreled in the  
north, and the Rensburgs trekked  
through to the Limpopo, and they were  
never seen again. It was subsequently  
ascertained that the whole clan had  
been massacred by a Matabele impi.  
The Trichardts heard this in Zoutpans-  
berg as a rumor among the Kafirs, and  
they also heard that the Matabele were  
recruiting a special impi for them. Old  
Trichardt then decided upon the bold  
enterprise of marching to Delagoa bay  
across a country which no white man  
had traversed yet. Then commenced the  
tragedies, the romances and the  
nameless horrors of the Trichardt diary.

No novel that has ever been written  
appeals so potently to the heart as the  
simple words of this grand old hero of  
South African pioneering. The record  
of the march to Delagoa bay is a record  
full of tears illumined scarcely by one  
brighter ray. There are passages in  
this journal which South African history  
cannot afford to lose. At Delagoa  
bay the whole trek died of fever, one by  
one, and the old man—whose monu-  
ment should stand on Church square  
to-day—wrote the last page of the aw-  
ful story the day before he, too, suc-  
cumbed to the disease. Few more  
touching passages will be found in any  
history than the description of their ar-  
rival in Delagoa bay. They reached  
there at the very last gasp, so to speak.  
Their cattle had all been killed by the  
tsetse. Worn out and famished, with  
nothing but animal skins to cover  
themselves, they reached the Rio  
Spirito Sancto with death staring them  
in the face from its pestilential banks.  
Almost the first thing they beheld was  
a boat upon the river and then they  
met the first white man they had  
come across during their long pil-  
grimage. He was a Portuguese soldier  
of the garrison, and with him they  
traveled down the river to the fort—to  
die.

The book belongs to the Trichardt  
family, and was kindly lent to Young  
South Africa through the good offices  
of Commandant Trichardt, of Midde-  
lburg. It is written in pale ink, and  
apparently with all manner of instru-  
ments, serving for pens, and is strongly  
bound in tanned ox-hide. The binding  
is the handwork of the father of Voort-  
rekkers himself. The watermark on  
the paper is 1839 and the diary was  
commenced in Zoutpansberg in 1837.  
Mr. Roos has spent no pains to make  
a perfect copy. The grand old pioneer  
wrote a firm, clear hand, but through  
age and the ink used the writing is  
occasionally hardly legible. By means  
of the two mirrors, however, Mr. Roos  
succeeded in deciphering every word,  
and he will, therefore, present to the  
society a perfect copy of the first diary  
written by a white man in the Transvaal.  
It will be proposed in the society that  
the government be approached with a view  
to the publication of the book at state  
cost.—Transvaal Times

CARE OF A PIANO.

An Expert Gives a Few Hints Concerning  
the Care of This Instrument.

A skilled pianist never allows his be-  
loved instrument to stand up against  
the wall in his room, a space of at least  
a foot being allowed, says a music  
dealer. This is to prevent damp and  
allow a passage of dry, warm air. The  
precaution is especially necessary in a  
brick house where the wall is an out-  
side one. Bricks are anything but  
damp proof, and unless the wall is  
"furred" there will be considerable  
dampness, especially when the first fire  
is lighted for the fall. Dampness is  
fatal to a piano, because, among other  
reasons, the rosewood used in making  
the frame is tropical wood, and not  
capable of resisting moisture for any  
length of time.

In a carelessly kept piano the polish  
is bad, and the varnish looks as though  
an army of insects had been at work on  
it. This is because the wood has  
stretched and shrunk with great rapid-  
ity, owing to getting damp and then  
being dried again, and a musician sel-  
dom cares to buy such an instrument,  
knowing that the delicate interior has  
suffered at least to some extent with  
the exterior. Taking care of a piano  
is half the battle, and the loss damp-  
ness the less expenditure necessary to  
keep it in tune.—Chicago Dispatch.

FROM THE ORIENT. With Advice Gathered at Hawaii While En Route. THE WALKER-SINCLAIR CONSPIRACY Broken Up by the Arrest of the Leaders—Minister Blount's Impatience—More Trouble Between Corea and Japan, Etc., Etc.

SAN FRANCISCO, Cal., July 15.—The steamer Purpur arrived from Hong Kong and Yokohama, via Honolulu, yesterday morning, bringing the following advices from the latter place: The examination of the conspiracy cases resulted in the discharge of Walker and Sinclair for trial. The heads of the police consider the royalist plans to be substantially broken up as a result of the trial. Walker appears to have been the active military leader of the conspiracy. He is a British subject and served under Guster. He is a former member of the United States Minister Blount is impatient for the appointment of his successor, whose arrival will set him free to carry home his report. At a shooting match on July 4 it was observed that Prince David and Tom Cummings used rifles and cartridges of Japanese make. As none such have ever passed the custom house, it is likely they were presents from the Japanese naval officers. Since, however, there was a great stir last April about the rumored landing of rifles for royalist use from the Japanese cruiser Nanwa, the police are pursuing inquiries into the matter. President Dole says that their relations with Japan are extremely friendly and that a strong disposition to support the provisional government has been expressed by Japan. There seems to be prospects of more trouble between Japan and Corea. The governor of a Korean province has issued a notification prohibiting trade with Japan and other countries. A number of Japanese families are suffering in consequence of the prohibition. On June 19 three or four Japanese were murdered near Yuen San, and a Japanese war ship has been dispatched to the scene of the murders. Fire destroyed fifty-four houses in Hokkaido and burned one person to death. Rear-Admiral Irwin, commander of the United States Asiatic squadron, and staff, were received by the Japanese emperor on the 19th ultimo. President Dole, in an interview, said that in case the United States refused to do anything toward annexation, England was the only available source for aid to which Hawaii would turn in case circumstances forced action. He hoped that the matter would be settled in September by congress. Minister Damon has made a strong fight before the councils. A short time ago he showed how Hawaii could be made self-sustaining in case annexation did not take place. He has now submitted figures showing how, without increase in taxation, the country would be self-sustaining in the event of annexation to the United States, which would cut off the revenue derived from the custom house and post office.

THE HONOLULU CURRENCY. Letter from Henry Claws to Comptroller Eekels. WASHINGTON, July 15.—Comptroller Eekels has received the following letter from Henry Claws, the well-known banker: NEW YORK, July 15.—Dear Sir:—The national bank act certainly should be amended to provide for the surplus capital of the national banks to the extent of 75 per cent thereof. These two changes in the law would make an increase in the national currency amounting to about \$100,000,000 and would provide the nation with enough for its needs and it would be the best and most legitimate kind, besides. The New York banks now have a surplus over capital of \$70,000,000. The national banks of other cities and elsewhere have probably \$100,000,000 additional. This bank's surplus is equivalent to the notes issued against the same would make them the strongest and most legitimate kind of money in circulation. No stronger kind of money could be devised. The surplus against which the issue of these notes would be made would be under the national bank's ownership. The constant increase in the surplus of the banks would also give an elastic character to such money which is a very desirable feature. Yours very truly, HENRY CLAWS.

Struck from Behind While on an Errand of Mercy. WASHINGTON, June 17.—A freight train collision occurred near here yesterday under unusual conditions. The crew of an outgoing train saw a man lying near the track apparently injured, and in accordance with the rules of the road the train was stopped and an investigation made. It was found that the man was unconscious from a wound in the head and a fractured leg. He was placed in the caboose, but before the train could be started another freight, also outward bound, came along and crashed into the standing cars. The men in the caboose had not time to remove the body of the injured man, barely escaping the wreck themselves by jumping. It is said by rare good fortune the collision did not aggravate the injuries of the victim. He was brought to the city and placed in a hospital, and last night it was reported that he was somewhat improved. He has been identified as Wm Leonard, a cigar-maker living in this city. How he received his original injuries has not been learned.

The World's Fair Judges Begin Work. WASHINGTON, July 15.—The American and foreign judges in the departments of manufactures, machinery and mining are on the ground and began their work of examining exhibits for awards this morning. The American National Red Cross passed through the city last night with a corps of trained nurses and a supply of surgical dressings for the wounded of the Pomeroy, Ia., tornado.

Highest of all in Leavening Power.—Latest U. S. Gov't Report. Drury Lane Theater to be Demolished. LONDON, July 17.—The Duke of Bedford, one of the richest and most unpopular of London landlords, has refused to renew the lease of the Drury Lane theater. Therefore, after an existence of 50 years, the theater will be demolished.

London, July 17.—The American champion swimmer, McCusker, defeated easily the ex-champion English swimmer, Finney, at Blackpool. The match was for \$200 a side. McCusker has been challenged by the English swimmer Nuttall to race one mile for \$1,000 a side.

Gen. Des Jardine Dead. NEW YORK, July 17.—Gen. Jardine died at 1 o'clock yesterday afternoon.

Wheat Ashes. HILL, Mass., July 15.—The schooner William L. Bird, Capt. Pappas, from Philadelphia, with coal, is ashore near Nix's Maw. A tale is near her.
